Key Features & Benefits for Additives & Fuel Treatments:

- > Meet engine omission requirements
- > Superior protection of older vehicles
- > Designed to protect 'dry' fuel systems\*

\*Refer specific PDS

Expert Tip:

Did you know that dye is sometimes added to oils for easy identification? Base oils and additives have natural variations in colour (i.e browns and pale gold) but have no bearing on the performance of the oil.

ADDITIVES & FUEL TREATMENTS

Penrite in conjunction with its international technology partners have developed and manufactured a new range of additive products. Penrite’s new additive range has been designed to enhance a vehicles durability, reliability, economy and performance. At Penrite we believe in setting the standard, so like all Penrite products, our new additive range offers real benefits and improved performance from industry firsts that are unique in the market place.

## Engine Flush

Product Code	Pack Size	Carton Qty
ADEF375	375 Millilitres	6
ADEF020	20 Litres	1

Penrite Engine Flush is a fast acting, solvent free, engine cleaning formulation that removes engine deposits and contaminants with the oil drain.

## Engine Stop Leak

Product Code	Pack Size	Carton Qty
ADESL375	375 Millilitres	6

Penrite Engine Stop Leak has been specifically formulated to control engine oil leaks due to deteriorated or worn seals and gaskets including the Rear Main.

## Petrol Injector Cleaner

Product Code	Pack Size	Carton Qty
ADPIC375	375 Millilitres	6
ADPIC020	20 Litres	1

Penrite Petrol Injector Cleaner is a 2 in 1 petrol fuel treatment that will clean injectors, protect fuel system components and improve fuel economy of unleaded and E10 fuel in one simple treatment.

## Octane Booster

Product Code	Pack Size	Carton Qty
ADOCTB375	375 Millilitres	6

Penrite Octane Booster is a fuel treatment that will keep injectors and inlet valves clean and will also provide octane enhancement when used with either unleaded or Ethanol E10 based fuels.

## Upper Cylinder and LPG Lubricant

Product Code	Pack Size	Carton Qty
UCL001	1 Litre	6

Penrite UCL (Upper Cylinder and LPG Lubricant) is a special low viscosity mineral based oil for protection against valve seat recession wear and lubrication of the fuel system in all vehicles.

## Valveshield

Product Code	Pack Size	Carton Qty	Colour: Yellow
ADVS250	250 Millilitres	12	

Key Specifications: AS 4430.1-1996, Federation of Vintage Motor Clubs (UK)

Penrite Valveshield is an unleaded petrol treatment formulated primarily for vehicles originally designed and manufactured to run on leaded fuel. It protects these engines against valve seat recession (VSR) using current unleaded fuels.

## Diesel Injector Cleaner

Product Code	Pack Size	Carton Qty
ADDIC375	375 Millilitres	6
ADDIC020	20 Litres	1

Penrite Diesel Injector Cleaner is a 2 in 1 diesel fuel treatment containing additives to clean and protect fuel system components and improve the combustion quality of diesel fuel yielding improved fuel economy.

## Penblue (AdBlue®)

Product Code	Pack Size	Carton Qty
PENBLUE010	10 Litres	1
PENBLUE210	210 Litres	1
PENBLUE1000LTR	1000 Litres	1

Colour: Clear

Key Specifications: DIN 70070, AUS 32, ISO 22241

Penrite Penblue is an aqueous solution of Urea, 32.5% in weight. (AdBlue®) SCR (Selective Catalytic Reduction) systems require a continuous provision of a solution of Urea at 32.5% in order to operate correctly. SCR technology has been developed to fulfil the requirements of emissions standards EURO 4 and EURO 5.

## Radiator Flush

Product Code	Pack Size	Carton Qty
ADRF375	375 Millilitres	6
ADRF020	20 Litres	1

Colour: Blue

Penrite Radiator Flush is a blue coloured fast acting, alkaline cleaner which removes rust, scale and other deposits from automotive cooling systems.

## Radiator Stop Leak

Product Code	Pack Size	Carton Qty
ADRSL375	375 Millilitres	6

Colour: Blue

Penrite Radiator Stop Leak is a high quality water based sealant for leaking cooling systems.

## Radiator Inhibitor

Product Code	Pack Size	Carton Qty
ADRIC375	375 Millilitres	6

Colour: Yellow

Penrite Radiator Inhibitor is a biodegradable inhibitor concentrate, formulated to prevent corrosion and cavitation in engine cooling systems that do not contain glycol based Anti-Freeze Anti-Boil solutions.

## Power Steering Stop Leak

Product Code	Pack Size	Carton Qty
ADPSL375	375 Millilitres	6

Colour: Amber

Penrite Power Steering Stop Leak has been specifically formulated to control leaks in the power steering system due to deteriorated or worn seals and gaskets.

## Automatic Transmission Stop Leak

Product Code	Pack Size	Carton Qty
ADTSL375	375 Millilitres	6

Penrite Auto Transmission Stop Leak has been specifically formulated to control leaks in automatic transmission systems due to deteriorating or worn seals and gaskets.
