Key Features & Benefits for Marine & Leisure:

- › NMMA Approved products
- › Protects against rust even in marine salt water environment
- › Longer engine life by protecting against wear

Expert Tip:

NMMA TC-W3®

The TC-W3® standard is a performance - based qualification program. The requirements include various bench tests for fluidity, miscibility, rust, compatibility etc, as well as engine tests to evaluate the prevention of ring sticking and carbon building.
